From Imagination to Impact: Empowering Graduate Students to Create the Future

This past year, we continued to support our incredibly diverse graduate student body, and at the same time and dedication to the highest levels of academic excellence. Our mission is to educate the next generation of leaders and innovators, and to guide them towards impactful contributions to society. The Office of Graduate Education (ODGE) works to ensure that all graduate students have access to superior programs, access to the latest and greatest digital technologies, and a strong support system to help them succeed.

Supporting Education Innovation and Excellence

ODGE has spearheaded a task force exploring graduate student housing working group. The International Students Office has enhanced its offerings and student housing support, such as walk-in hours. We are extremely proud of the Graduate Student Council who have led a number of community-building programs such as the MIT Summer Research Program. We have also initiated a program to support graduate students to engage in local community outreach, "Taste of" cultural events, and international student research fellowships.

Enhancing Administration and Policy

We have made significant progress in increasing the number of graduate students to engage in local community outreach, "Taste of" cultural events. We have also initiated a program to support graduate students to engage in local community outreach, "Taste of" cultural events. We have also initiated a program to support graduate students to engage in local community outreach, "Taste of" cultural events. We have also initiated a program to support graduate students to engage in local community outreach, "Taste of" cultural events.

Competitiveness in Graduate Funding

In 2013, 7000+ graduate students received external fellowships. Coordinated nominations for an increased number of external fellowships were issued, including Howard Hughes Medical Institute International Student Research Fellowships. Graduate students were also recognized with numerous awards, including Graduate Student Council awards and the entire Graduate Student Council-organized Career Fair.

Diversity and Inclusivity

We have made significant progress in increasing the diversity of our student body. Our efforts have included expanding our international freshman orientation and run a successful pilot involving twice-weekly sessions. We have also increased the number of students from underrepresented populations, and we are proud to support initiatives such as the MIT-China Innovation and Entrepreneurship Forum, and the MIT Science Policy Initiative Congressional Visits Day.

Recruitment, Retention & Inclusivity

500+ graduate students were awarded two MIT "Infinite Mile" Awards including the entire Graduate Student Council-organized Career Fair. Graduate students were also recognized with numerous awards, including Graduate Student Council awards and the entire Graduate Student Council-organized Career Fair.
